Spayed/Neutered: _____

Veterinary Clinic & Doctor's Name: _____

Proof of current vaccinations:

Dogs	
Rabies	1 or 3 year
DHLPP	1 or 3 year
Bordetella	Every 6 months; Intranasal

Cats	
Rabies	1 or 3 year
FeLV	1 year
FVRCP	1 year

Does your dog have any health concerns? _____

Does your dog have any restrictions on activity? _____

Is your dog on any medications? If so, please name them: _____

Does your dog receive heartworm, flea and tick preventatives? Please name them: _____

Canine Info

We need to know your dog(s) as well as you do! Please answer the following questions so that we have a better understanding on the behavior of your dog.

How is your dog's temperament around strangers? _____

Does your dog have any fears or obsessions? If so, please name them: _____

Has your dog ever bitten anyone? _____

Is your dog crate, food, or toy aggressive? _____

Is your dog house or crate trained? _____

Does your dog like to receive brushings? If so, how often? _____

How does your dog react to getting their nails clipped? _____

Does your dog react to being touched in any area? _____

Is there anything else that we need to know about your dog? _____

Client Grooming Agreement

Aggressive or Dangerous Pets: Owners MUST inform Woofers if your pet(s) has bitten or is aggressive to people, pets, or specific grooming procedures. Muzzles may be used if necessary. Muzzling will not harm your pet, and protects both the pet and the groomer. Woofers reserves the right to refuse or stop services for such pet(s) at any time before or during the grooming process, and charge a handling fee for aggressive dogs in addition to the regular grooming charge.

Health, Medical Problems & Senior Pets: Grooming procedures can sometimes be stressful, especially for senior or ill pets, and can expose hidden medical problems or aggravate a current one during or after the groom. Because these pets have a greater chance of injury, these pets will be groomed for cleanliness and comfort. In the best interest of your pet this agreement will give Woofers permission to obtain immediate veterinary treatment for your pet should it be deemed necessary. We will do our best to contact you first, and then take your pet to your authorized Veterinarian. It is agreed that all expenses for Veterinary care will be covered by the pet's owner upon signing this agreement.

Mat Removal: Pets with matted coats need extra attention during their grooming session. Mats left in a pet's coat only grow tighter, and can injure the pet's skin, and eventually tearing the skin open. Mats can be very difficult to remove, and may require the pet to be shaved. When necessary, removing a heavily matted coat includes risks of nicks, cuts or abrasions due to warts, moles or skin folds trapped in the mats. Heavy matting can also trap moisture and urine near the pet's skin allowing mold, fungus, or bacteria to grow, resulting in skin irritation that existed prior to the grooming process. Torn skin from mats can also harbor maggots. After effects of mat removal procedures can include itching, redness, irritations, or abrasions, as well as failure of the hair to re-grow. Shaved pets are also prone to sunburn and should be kept out of the sun until the hair grows sufficiently to protect the skin. In some cases pets may also exhibit brief behavioral changes. Prevention is the best defense against matting by scheduling a regular grooming appointment. There is an extra charge for dematting.

Puppy's first Haircut: The first grooming experience for a puppy (or any age dog) requires patience and understanding. More time may be necessary to work with younger pets. Gradually adding steps to the grooming process on a regular basis will help to minimize any potential stress. Owners can help their pets accept grooming by regularly massaging pet's paws as well as brushing & combing their coats. Frequent handling of paws can help pets better accept nail clipping or trimming around the feet.

Accidents: There is always the possibility an accident could occur. Grooming equipment is sharp, even though we use extreme caution and care in all situations, possible problems could occur including cuts, nicks, scratches, quicking of nails, etc. In most cases this can happen when a pet is wiggling or moving around. Every effort will be made to insure your pet is groomed as safe as possible, but an excited pet can be dangerous to continue to work on.

Parasites: If you suspect your pet has fleas or ticks, prompt and thorough action on YOUR part will be needed. Flea infestations can lead to tapeworm and other health problems. If fleas or ticks are found during the grooming process, your pet will receive a flea bath to kill the parasites and an extra charge will be applied. Ticks found will be removed and an additional charge may be applied. Please note that parasites are a health hazard to your pet as well as to humans.

Hold Harmless Agreement: By signing this agreement you (or your Agent) agree to hold Moxie Dog, L.L.C. dba Woofers from any damage, loss, or claim arising from any condition of the undersigned pet, either known or unknown to Woofers. It is also further understood and agreed the terms of this agreement will supersede any prior signed agreements.

Late Pick-Ups: We request that your pet(s) be picked up 2 hours from the time the groom was finished. All pets must be picked up before 6:00pm or closing time. All pets not picked up by close of business will be charged a late fee of \$10.00. All pets that are left past 6:15pm will be boarded over night and will be charged a boarding fee.
